

## FEEDBACK (Classes : PN-V)

1. Ma'am it's a great experience of online classes because it's a new way of learning. All the teachers have proved that nothing is impossible. You all have put much efforts in making PPT, assignments and e content. It is highly appreciable that competitions are also being conducted. I accept that children are facing little difficulty, but it is the best in the present situation and better than holidays. They are not blank now and are much familiar with the topics. There will be little need of revision once the school reopens. Thank you, ma'am, to you and all the teachers. You all are shaping our kids who are lockdown at home due to pandemic. Thank you so much.

2. "I reached India yesterday only. In these last few months, my son used to put me on video call on his father's mobile for the complete duration the class goes on. So, I also attended all his classes virtually along with him. Swarnprastha teachers are really doing very well. No other school is able to handle online classes so well. Hats off to you. My son, Aadvik really admires you a lot and misses you as a Class Teacher and he said that my friend Pranjay is lucky to have you as a Class Teacher. He wishes that u will teach him again in any of the classes."

3. Hello mam,  
I truly appreciate your vision the hard work and efforts of all the teachers in conducting online classes.  
Teachers are thorough with content while taking up classes. E content is self-explanatory and written up in easiest language for kids to understand without parents' involvement.  
The way teachers are handling children virtually is commendable, way above my expectations I will mention.

All teachers are open to students' queries (and stories many a times 😊) and explain them answers in easiest possible way. The way they are handling mischievous students is also remarkable 😊😊. Thank you.

Considering the fact, that this is the first experience of virtual teaching for teachers, they are outshining all expectations with their diligence.

Being a parent, I cannot thank enough to all the teachers who are working way harder to teach my daughter in this changing and challenging environment.

Last but not the least, my heartiest gratitude to you and the teachers and you all are AWESOME.  
Thanks

4. Hello-ma'am  
Its our immense pleasure that we are a part of Swarnprastha family. My daughter utterly enjoyed this period with all sorts of learning. The best part was her excitement of being promoted to class 3rd was not spoiled due to the effects of this pandemic. With help and thorough guidance of her teachers she is capable to understand and learn the concepts she was taught. I truly appreciate the efforts and whole hearted dedication of the staff.  
Regards

5. "Feeling thankful to the Swarnprastha management and teachers for starting online classes during this pandemic situation. My child has got admission this year but the attention given to him by teachers is worthless. In this pandemic Swarnprastha team is doing really very hard. I would like to thank all the subject concerned teachers for their special efforts during these online teaching which makes teaching so enjoyable and well learned. I would also appreciate the online classes started by the school. I am very happy and satisfied being the part of Swarnprastha family."

7. "This message is to thank you all for making our learning a new experience. Teachers are the most respected people of the Society and the reason is that you all made learning possible even in tough time like today. You have shown again that learning is for all and from anyone and anywhere." In this hour of need, you are showing us the path for a better and brighter tomorrow.

Thank you all!

11. Dear Ma'am,

I am writing this mail because I want to thank you for all the efforts your school and teachers are taking for teaching our kids. So many schools started teaching online, but slowly majority of them have stopped taking classes and just sending only the PPTs to kids. I must say, the teachers of Swarnprastha are really taking lot of pain. The content knowledge and delivery by teachers is exceptionally good. Thank-you

12. "I, myself is a chemistry teacher but I really like your class the way you teach Science especially small chunks of information from day to day life which are not in their books. I really like that part that makes strong foundation for Science."

"Mam once again, I want to tell you that me and Darsh enjoy your class. After listening to your class, I liked most thing that I get to know how deep we should go for a class 4 child because I take senior classes, I sometimes find difficult to understand how deep we should go for a class 4 child. But your class so good that I have started explaining things to him in detail. Last time you took role of hemoglobin in our body was very well explained."

13. "Online classes are the only medium by which teaching is possible these days. Not only the subjects, but the school is also giving significance to the co-curricular activities. Team Swarnprastha has done it again!" Sincere gratitude from the parents.

14. Greetings!

I, the parent of Tavish Grover of 4thC would like to offer my sincere gratitude for arranging wonderful study sessions with arduous teachers of SPS. I also appreciate individual attention paid to students by all teachers.

Ms. Jeevan's warm touch and an effort to use quality vocab is praiseworthy.

Ms. Bhawna's friendly way of explanation makes me, and my ward wait for her class.

Ms. Sonia's devotion is exhibited in making the tougher content easier by sharing maps and diagrams and being ever ready for students.

I believe Ms. Sarika would have plenty of fans including me. She steals hearts with knowledge and discipline even in online classes.

Ms. Kajal's patience even to deal with elementary issues of kids is commendable. Her content delivery and discipline are effective too.

Once again accept my standing ovation for SPS teachers and a big salute to you who is the driving force behind these victories. I and my ward also endure cookery classes by SPS chef, art and craft and instrumental hobby classes.

The concern with this online teaching is increased screen time ( scheduled classes + with parent for PPT understanding) which I feel can be reduced if teachers send their recordings of content which parent can watch and teach as per their time availability. Once in a week can be finalized for online class test may be oral on individual basis as they are conducting now also.

With tons of luck

15. Hello Jeevan Ma'am

I want to share with you that Darsh because of your way of teaching Hindi is now daily reading one page of Hindi. He takes interest in Hindi. We love the way you handle them with both love and in instructive way. In online classes some students behave little naughty sometimes but you handle in that situation very carefully with lots of patience, love and your dialogue 'mere laal' and most importantly you teach them values of Hindi subject as you always instruct them to speak in Hindi during Hindi class. You focus on their reading and speaking skills in Hindi which is

most important for students now-a-days because now-a-days our whole world revolves around English. You always try to make your class interesting by conducting small quizzes like on corona which you conducted last time. Students enjoy as well as learn in this way. You are the best teacher for Hindi subject for Darsh. Earlier Darsh was not good in Hindi but with your love and guidance he is taking interest in Hindi subject. You are friend cum teacher for Darsh. He really admires you. Thank-you

18. "We would like to thank-you ma'am for your enduring effort during online classes."

**By Lavanshi Dhiman III B**

19. "Conducting online classes is not a cake walk...it needs much more homework on a teacher's part before teaching the students. Surfing the net day and night, sending links and assignments to students which are useful to them. Solving their queries, giving feedback on their assignments and a whole lot more. It's very much exhausting mentally."

**By: Ms. Nidhi M/O Nayonika IV-D**

20. "As a Parent, we would like to thank you ma'am for your endearing efforts of imparting education during online classes."

22. Dear Ma'am

How much Swarnprastha teachers are committed to their work, thank you for your efforts ma'am because Monish has insisted me to join your school. I made him to enrol again in your school. He was missing your school a lot. He said to his Social Science teacher because of COVID-19, he could not come to school otherwise, he is eager to come to school. I could also see his interest and commitment in studies after joining in your school.

Thank-you

24. Your work deserves appreciation. You are the first teachers to tackle a challenge like the one we're facing now. Years from now, 2020 will be remembered as the year we all learned how to live life at a distance from each other and continue to function as a society.

Pause a moment and realize that what you're doing matters. It matters not just for the students you have in your classes today, but also for the future. You are part of large-scale systemic change and are making history. You are putting countless hours into each session in terms of content and qualitative delivery. Teachers have been multitasking, researching, and developing material and brushing up on their technical skills. I stand in support of teachers around the globe who are making sure that their children are continuously learning at their home during this pandemic. Our kids are learning empathy, social emotional skill and compassion from you—a skill we're all learning and practicing right now. You have a place in our kids' lives. Whether they are groaning about doing the work you have assigned, anxiously awaiting a phone call from you, or gleefully trying to get your attention during your virtual class meeting, it's because you matter.

Teachers, parents can't replace you. You are essential. Take care of yourself. Be well. Try your best. And thank you for being there.

**By: Reena Bindra M/O Delisha Bindra III-D**

25. Teachers require so many positive qualities like care, compassion, patience, and commitment. Sumeet ma'am, you seem to have all these qualities in abundance. Whenever my daughter reaches next class, I always feel that she should get the best teacher, you are the best just like your predecessors. Keep caring.

"Thank you, thank you, thank you!"

26. Your student is still carrying your legacy forward of lemonade and sandwich recipes for making Mother's Day special taught by you. Always indebted to you.

"I feel he is really enjoying and learning a lot from these classes. He is interacting with you and friends, discussing everything.

You are really working very hard work for it. The classes are well planned, and my child gets the time table and work in advance.

The best part is that you explain very nicely. You are putting your best efforts to educate him in this time of lockdown."

"First of all, heartiest compliments to you for involving all children in the zoom class. The way you teach in virtual class, use of inputs made by you or using things from home to clear the concepts to children is really commendable. Children can be seen enjoying and participating in their virtual classes. Current Timings are going very well with the daily schedule. Please do not change them. Aside from occasional sound connection issues, everything is perfect. Special thanks for encouraging children to involve in extracurricular activities. Also, love the way u respond to every task done by Hitesh on Whats Appquick n energizing response to make him motivated to do better next time."

"As my child is new to school, she wanted to change her section as she wanted to stay with her friends who have also taken admission this year. Earlier she was very upset. But now she does not want to change her section. She feels very comfortable with you. Thanks a lot Ma'am."

**By:Mr. Sandeep Khatri F/O Kinjal -IB**

Dear teacher, the way you narrate the story is really impressive, I really like the way you interact with every child. Thank you for being so caring and expressive. You are a wonderful teacher.

**By:Ms. Shradha M/O KavyaPreet I-C**

Dear teacher, I am fond of your accent. While it was a novel experience to see the kds studying online, virtual classroom eradicates the gap between parents-student-teacher. Along with , your way of teaching is awesome, using Goldie and other things to teach students is very helpful to enhance the interest of kids in class, storytelling is also a wonderful teacher's way of talking to students is very cordial and suggestive.

28. Dear teacher, You know how to bring the best in a child. Your way of teaching is so interesting that parents also want to attend your class. There are great changes in my ward's personality. All credit goes to you. Thanks a lot

**By: Ms. Pratima M/O Vainika I-C**

29. Dear teacher, started with being highly apprehensive about the online class and school pattern, but gradually the apprehension eased because of the hard work of teachers. The way you manage things so smoothly. Each and every topic is covered well. You are available all the time and with full patience. Great team efforts. Kudos SPS team.

38. "The online classes that are being taken are really nice and well planned. It shows how much efforts are being taken by the teachers and the school administration. Whatever classes I have been able to attend for my ward "Arhaan Antil" were taken creatively, giving ample opportunities to parents to discuss and for the children to interact. The e content also that is being sent is very helpful and interesting. Although my son is not able to sit and watch all the videos and due to my conflicting time schedule I am unable to attend all classes, but I can at least use them with him practically to teach him the concepts being taken." Thanks and Regards.

39. "I want to thank school management for the initiative taken to help children to continue their studies. This is the time when Covid-19 pandemic has put a halt to everything and as parents, we were really worried about our children's education. But thanks to the school management who have brought this out of box solution. This is critical time for our kid to develop his brain and knowledge imparted through online classes and activities organized are really playing a crucial growth in his growth. If these classes would not have happened, I believe my kid progress would have been hampered. Further, our kid is really enjoying this new method of education which is also helping him to familiarize himself with technology which is future. Special thanks to Ms. Gangotri Neerja Batra for her commitment and efforts she is putting to make these classes successful and future of our kids better."
