

**SWARNPRASTHA PUBLIC SCHOOL****SESSION: 2025-26****CLASSES: 1 to 10****REMEDIAL CLASSES**

**"Beautiful things take time -not every flower blooms at the same time
but each one is beautiful in its own way."**

Dear Parents,
Greetings of the Day!

At Swarnprastha Public School, we have always believed in going the extra mile to ensure the holistic and continuous development of every child. We remain committed to identifying their individual needs and offering timely academic support so that no learner is left behind. In alignment with this belief, we are pleased to inform you that **Remedial Classes** have been introduced for selected students who require additional reinforcement in certain subjects.

We have initiated this program with English and Mathematics, going forward, other subjects will also be included. These sessions are being conducted during the **Class Teacher Period**, so as not to disrupt the regular timetable. The decision has been made after careful monitoring of students' academic performance, classroom engagement and overall understanding of concepts. The goal is to bridge learning gaps, strengthen foundational skills and help students gain greater confidence in these core subjects.

We view this as a collaborative effort and sincerely seek your encouragement at home to ensure your ward participates wholeheartedly and makes the most of this support.

Let's empower every learner to rise and shine with his own pace.

Regards

Team Swarnprastha
