

**SWARNPRASTHA PUBLIC SCHOOL****SESSION: 2025-26****CLASSES: LKG to 5****Discontinuation of Award Ceremony**

Dear Parents,
Greetings of the Day!

Swarnprastha Public School firmly advocates that every child is valued for who they are and not just for what they achieve. After much deliberation, it has been decided to **discontinue the Academic Award Ceremony for Classes LKG to 5 from this Academic Year**. This decision has been made after careful consideration, keeping the well being of our young learners at the forefront. We believe that at these foundational and preparatory stages, the focus should be on holistic development rather than competitive comparisons. Such award ceremonies, while intended to motivate, often lead to undue stress and unhealthy competition among children. Our aim is to nurture confident, curious and emotionally secure individuals. True learning is not a race and every child blossoms at their own pace.

We believe in celebrating every child's journey — their efforts, values, creativity, kindness and growth — not just academic milestones. This shift is a step towards fostering self worth, collaboration and joy in learning, without the burden of competition.

We look forward to your understanding and wholehearted support as we continue to prioritise the emotional and holistic development of every child.

"The true measure of a child's progress is not comparison but how far they've come on their own journey."
