Summer Vacation Activities

Session 2025-26

Class 2

Summer, summer is almost here.
Let's give summer a big fat cheer!
Of this fact I'm surely clear,
Summer is the best time of the year.

Dear Parents,

Summer Vacation is just around the corner!

Let every moment of this break be a time to unite, connect, and create beautiful memories with your child. Holidays offer a wonderful opportunity for parents to become both teachers and friends—guiding, supporting and sharing in joyful experiences. Make the most of this precious time to strengthen your bond and build moments that will last a lifetime.

GUIDELINES:

- Homework should be completed under the guidance and supervision of parents to ensure better learning and discipline. It must be done in a very tidy and presentable manner.
- Students are encouraged to complete the assignments on their own. Original work will be appreciated and valued.
- Please revise all the topics covered during the months of April and May to reinforce learning and understanding.
- To broaden general knowledge, students are encouraged to watch informative programs on channels such as **Discovery Kids, Animal Planet, or YouTube Kids.**
- To develop better language skills, students are encouraged to communicate in English with family members and friends on a regular basis. Looking forward to see you soon!

HAPPY HOLIDAYS!

**With Best Regards,
Team Swarnprastha**
